

The ProTek R/C TruGrit Detail Sanding Pen was specifically developed for those hard-to-reach sanding jobs. Unlike other sanding products, the TruGrit Sanding Pen provides three different working surfaces and the ability to use the entire sanding material.

### How to Replace Belts:

- 1 Press rounded end of pen down onto hard surface.
- 2 Slip old belt off.
- 3 Put a fresh belt over rounded end.
- 4 Repeat step one.
- 5 Slip fresh belt over tapered end.

### Replaces:

- Files, Swiss Files, Benching Stones
- Ceramic Scrapers, Nail Files
- Folded Sandpaper
- No more problematic sanding jobs
- No more wasted sandpaper
- No more bruised fingers from sanding against or between adjacent surfaces

\*Replacement sanding belts available in a variety of grit sizes.
